Second Sunday in Ordinary Time

CatholicGorillas.org

Last year at the March for Life, Vice President, Mike Pence gave an historic speech to America. He is the highest ranking elected official to ever make a speech at the March. This week, as we March yet again, please pray for the end to Abortion and the culture of death. Pray that this is the last March we ever have to do. Pray that our country may be faithful to its founding principles, but even more so,

faithful to the respect for the dignity of life that God has given to us and revealed to us in Jesus Christ. Here are VP Pence's words from last year:

"More than 240 years ago, our Founders wrote words that have echoed through the ages. They declared these truths to be self-evident; that we are, all of us, endowed by our Creator with certain unalienable rights; and that among these are life, liberty, and the pursuit of happiness.

Forty-four years ago, our Supreme Court turned away from the first of these timeless ideals. But today, three generations hence, because of all of you, and the many thousands who stand with us in marches like this all across the nation, life is winning again in America.

You know, life is winning in America. And today is a celebration of that progress, the progress that we have made in this cause. You know, I've long believed that a society can be judged by how we care for our most vulnerable -- the aged, the infirm, the disabled, and the unborn. We've come to a[n] historic moment in the cause for life, and we must meet this moment with respect and compassion for every American.

Life is winning in America for many reasons.

Life is winning through the steady advance of science that illuminates when life begins more and more every day.

Life is winning through the generosity of millions of adoptive families to open their hearts and homes to children in need.

Life is winning through the compassion of caregivers and volunteers at crisis pregnancy centers and faith-based organizations who minister to women in the cities and towns across this country.

And life is winning through the quiet counsels between mothers and daughters, grandmothers and granddaughters, between friends across kitchen tables, and over coffee at college campuses. The truth is being told. Compassion is overcoming convenience; and hope is defeating despair.

In a word, life is winning in America because of all of you."
